Additional Terms and Conditions:

Appearance

The agreement of the DJ to perform is subject to proven detention by serious illness, accidents, riots, strikes, epidemics, acts of God, acts of war, or any other legitimate conditions beyond the DJ's control. If such circumstances arise, all reasonable efforts will be made by DJ to find replacement entertainment at the agreed upon fees. Should DJ be unable to procure a replacement, DJ is liable only for the amount submitted as a retainer or for incremental payments totaling all funds in possession by the DJ at the time of the occurrence, but not to exceed the total cost of the DJ performance fee. Client agrees that in all circumstances, DJ liability shall be exclusively limited to an amount no greater than the DJ performance fee and that DJ shall not be liable for indirect or consequential damages arising from any breach of contract.

Retainers/Payments

All retainers/payments are non-refundable and non-returnable unless specified in this agreement.

Postponements

In the event that the client postpones the event, after a retainer/payments have been made, but 120 calendar days or more prior to the originally scheduled event date, any retainer/payments will be applied to a newly scheduled event to be held within 1 year from the originally scheduled event date and is subject to availability of the newly requested date. The new event will be subject to new pricing, if any, in effect at the time of the newly scheduled date. If the event is postponed between 119 calendar days and 60 calendar days prior to the originally scheduled date, 50% of the retainer/payments in the DJ's possession will be applied to a future date following the specifications previously listed. If the event is postponed between 59 days and 30 days prior to the originally scheduled date, 10% of the retainer/payments in the DJ's possession will be applied to a future date following the specifications previously listed. If the event is postponed within 29 days or less prior to the originally scheduled date, 0% of the retainer/payments will be applied to a future date and is effectively considered a 'Cancelled' event (see 'Cancellations' below).

Cancellations

Retainer/payments in DJ's possession for cancelled events are forfeited and are non-refundable. In the event that the event is cancelled, it will be considered a "breach of contract". The Client and DJ agree that this contract is not subject to a "no penalty no fee" cancellation unless both parties have agreed to such cancellation in writing. In the event the Client breaches the contract, the client shall pay the DJ the full amount set forth above as "Wage agreed upon" as liquidated damages, plus a reasonable attorney's fee if legal proceedings are required to begin collection of said damages.

Rebroadcast

No performance, in whole or part, of the event shall be recorded, reproduced, or transmitted from the place of performance, in any manner, or any means whatsoever, in the absence of a specific written agreement with DJ relating to and permitting such recording, reproduction, or transmission, for commercial purposes of any kind. Pictures and videotape of the event are permitted for the private use of the Client and event guests only.

Liability/Damages

It is hereby further agreed; that the Client shall be held liable for any injury or damages to the DJ, or property of the DJ, while on the premises during said event, if damage is caused by Client or guest, members of his/her organization, event invitees, employees, or any other party in attendance, whether invited or not.

Facility Issues

Client is responsible for full payment of DJ services to DJ should issues occur with regard to the facility or venue where the event is being held that, cause delay, postpone, prevent, hinder, or stop DJ activities. DJ compensation will in no way be reduced or lessened due to issues such as power outages (local to the facility or area-wide geographic power disruptions), fire, flood, inadequate staffing, forced evacuations, crime or criminal activity, or any other circumstance that does not fall under the responsibility of the DJ or DJ service.

Inclement Weather

It is understood that if this is a "Rain or Shine" event, DJ compensation is in no way lessened or reduced by inclement weather. For outdoor performances, it is the client's responsibility to provide overhead shelter for the DJ, which will offer proper protection from the elements, for setup and performance areas unless otherwise agreed upon. The DJ reserves the right, in good faith, to stop, cancel, or postpone the performance should the weather pose a potential danger to himself, the DJ equipment, or audience. Every effort will be made to continue the performance once the danger has passed (if possible). However, safety is paramount in all decisions. The DJ's compensation will not be negatively affected by such cancellation or delay. In the event that additional time is needed to complete the event, then the Client will be liable for the additional charge for the additional time requested. If the Client is unable, or unwilling to incur the additional charge, then the event will conclude at the original scheduled finish time (as stated in this agreement); regardless of whether or not the Client's scheduled program of activities was completed or not, and the Client will be liable for the balance due for the event should there have been no cancellation or delay incurred.

Security

In the event of circumstances deemed to present a threat or implied threat of injury or harm to DJ, DJ staff, or any equipment that is the property of the DJ or DJ service, as well as guests, event staff, or bystanders, including any other unsafe or dangerous circumstances or situations not mentioned here, the DJ reserves the right to cease performance until the threat or danger has been eliminated. If the Client is able to resolve the situation in a reasonable amount of time (15 minutes or less), DJ shall resume performance in accordance with the original terms of this agreement with no additional charges to the client for the additional time (15 minutes or less) needed to complete the event program. If the situation can not be resolved in a reasonable amount of time (more than 15 minutes), then Client shall be responsible for payment under the original terms of this agreement PLUS any additional time requested by the Client in order to complete the planned activities outlined in this agreement. If the threat or situation presents itself a second time, then the DJ reserves the right to cease all DJ activities and officially end participation in the event. Client WILL be responsible for costs incurred for any additional time requested to accommodate second delay. Client shall be responsible for payment in full, regardless of whether the situation is resolved or whether DJ resumes performance.

Guest/Client Access

In order to prevent equipment damage or liability arising from accidental injury to any individual attending this performance, DJ reserves the right to deny any guest/client access to the sound system, music recordings, other equipment, or areas of the facility or venue that would be assigned to the DJ to use for and during the performance and other supporting activities, as well as not be a common public area under the current conditions for guests or attendees to sit, stand, or travel through for any reason whatsoever. Client shall provide, and is responsible for, crowd control and/or security if deemed necessary.

I have read, understand, and agree to the additional terms and conditions listed above.

Specifications & Environmental Considerations:

Floor Location

Client shall provide DJ with safe and appropriate working conditions. This includes a 6-foot by 12-foot area (minimum) (or reasonable equivalent dimensions) for setup, speakers/speaker stands, lighting/lighting stands, and misc. equipment required to carry out performance, and as close to the dance area as possible. For outdoor performances, a level area is required that must be stable, dry, and free of uneven terrain. It must also be located in such a way that if inclement weather should arise, runoff will not drain into the area set aside for the DJ and DJ equipment.

Electrical

DJ requires a minimum of one 15 to 20-amp circuit outlet from a reliable power source within 50 feet (along the wall) of the set-up area to complete basic functions. This circuit must be free of all other connected loads (cookers, warmers, and other high-amperage and/or high-wattage devices not immediately noted or visually seen) and properly grounded. Any delay in the performance or damage to DJ's equipment due to improper power is the responsibility of the Client. Two circuits are preferred, where possible, to separate sound equipment from lighting devices. In the event of a power disruption, DJ will attempt to continue the performance by whatever means are available to the DJ at the time and in the possession of the DJ at the event (i.e. running extension cords to available outlets with power, etc.), but cannot guarantee success in restarting the performance due to conditions beyond the control of the DJ (facility-wide loss of power, etc.). Please ask the facility owner for electrical specifications if you are not sure.

Directions

Client will furnish directions to event venue if location is not easily mapped using standard travel maps and/or mapping computer software. Normally, DJ will use available mapping tools to plot travel to event location (i.e. paper maps, Internet, etc.)

Service Fees

Client is responsible for paying any charges imposed by the venue or facility on the DJ service in the course of performing at the event. These charges may include, but are not limited to, parking, use of electric power, item rental, etc.

Song Selection

The Client shall have reasonable control over the direction of the musical selections performed by the DJ at this engagement. However, the DJ reserves the right to have final determination over all musical selections played with consideration to all guests in attendance. A written event/music planner and/or music request list provided by the DJ service must be received from the Client and forwarded to the DJ no later than 30 days prior to the date of the event for it to be included in DJ programming guidelines. With or without the aid of an event/music planner and/or music request list, DJ shall attempt to play Client's and Client's guests' music requests but shall not be held responsible if certain selections are unavailable at the time of the request. DJ will make every effort to have music requests available if they are received IN WRITING no less than 30 days prior to the event. DJ shall use reasonable and professional judgment in the type of music played in relation to the type of event taking place and the general characteristics of the guests attending. At no time will the DJ play, or be expected to play, any music supplied during the event that is 'homemade' in nature. Mix tapes or CD's not previously screened by the DJ prior to the event are not allowed. Commercially available music that has been professionally produced and manufactured may be allowed only if it is possible to properly preview the chosen musical selections and will be considered on a case-by-case basis. DJ ultimately reserves the right to refuse to play any music provided during the event, regardless of the format.

Guest Considerations

If you plan on a cocktail hour or other activity before the official start of the main event, which is in the proximity of, or in the same room as, the main event, please be aware that unloading and set up of DJ equipment will be taking place which could interfere with guest comfort during this time. The room and area where the DJ is to set up should be easily accessible during this time. If this is not possible, then consideration will need to be given to possibly having the DJ set up well in advance of the official event start time. Please keep in mind that this will result in additional charges. (See 'Additional Costs, Wages & Fees' section)

DJ Lighting

DJ lighting is for entertainment purposes and illuminating the dance area with mood lighting only. DJ is not responsible for supplying safety or security lighting or general illumination for any reason under any circumstances.

Strobe Lights

Strobe lights, and other high-speed flashing lights are occasionally used during an event. Client is responsible for notifying DJ of any attendees who may possibly have an existing medical or physical condition that would be adversely affected by the use of these lights in writing prior to the start of the event. DJ is not responsible for the affect that DJ lighting may have on attendees or workers at the event that the DJ was not made aware of prior to the start of the event. Please note this in the Notes section of the 'Special Provisions & Additional Services Requested' page.

Fog/Bubbles

Proper conditions **must** exist for the use of fog effect and/or bubble machine. These conditions include, but are not limited to, outdoor events, events where carpeting or other high-traction flooring for the dance area is used, events where excellent ventilation exists, and by explicit permission from the venue itself. The DJ reserves the right of final determination based on facility/venue conditions.

I have read, understand, and agree to the Specifications & Environmental Considerations listed above.

Additional Costs, Wages & Fees

Non-payment

In the event of non-payment, DJ retains the right to attempt collection through the court system. Client will be held responsible for all court fees, legal fees, collection costs, and related expenses incurred by the DJ. Client shall be charged \$50 for each bounced check instance plus a \$25 service charge for each collection notice.

Setup/Teardown

This agreement states that DJ will be ready to perform at the start time of the engagement. No guarantee is made as to the specific DJ time of arrival. However, DJ requests that they be allowed a **minimum of 60 minutes immediately before the start of the engagement and a minimum of 60 minutes immediately after the end of the engagement** for setup and teardown. DJ is not responsible for starting late should the room not be available as requested and is not liable for compensating the Client should the Client request a discount or refund for the amount of time that accumulated by a late start due to the room not being available as requested. DJ also requests reasonably easy access to the setup area if available. If the venue requires setup or teardown in less time, or if equipment must be carried up more than 6 stairs, requires lifting beyond normal & reasonable range of human motion, requires lifting onto a stage, platform, or landing to reach the setup area and proper lifting equipment is not present, then an additional \$100.00 labor fee will be assessed at that time. If Client or venue requires DJ to complete setup more than 60 minutes before the start time, or to postpone teardown for more than 60 minutes after the end time indicated, the additional time will be charged at the rate of \$50.00 per half-hour (billed in half-hour increments) for every half-hour beyond the stated 60 minute setup/teardown times and will be charged to the Client.

Travel

Events within a 60 mile radius of Clifton Springs, NY (14432) will not be assessed a travel charge. Services requiring travel outside of this area will be charged an additional fee for venues 61 to 100 miles away, or a larger additional fee for venues 101 to 150 miles away. The travel fee for events in excess of 150 miles away will be charged \$1.00 per mile for the total number of miles driven one way to reach venue (i.e. 250 miles from 14432 to destination = \$250.00). Mileage fees fluctuate based on market conditions of fuel and maintenance costs and will be indicated in the contract. Please check with BTML for current costs.

I have read, understand, and agree to the Additional Costs, Wages & Fees listed above.
